Career Objective:

Detail-oriented Mechanical Engineering graduate with strong skills in design, drafting, and CAD modeling. Experienced in using AutoCAD, SolidWorks, and Fusion 360 to create accurate 2D/3D designs and technical documentation. Eager to contribute to innovative mechanical solutions in a collaborative team environment.

Work Experience:

Company: KWALITY Coil Products

Role: Intern – Oilcell Quality Testing

Duration: July 2024 – August 2024

- Studied oilcell quality inspection procedures and standards
- Participated in professional quality control sessions and documentation

Software Skills:

- AutoCAD
- SolidWorks
- Fusion 360
- Creo
- Ansys Workbench

Technical Skills:

- Problem-solving for design and engineering issues
- Strong understanding of engineering principles
- Technical drawing and specification preparation
- Sheet metal design knowledge
- GD&T for precise component fitment
- Team collaboration and communication

- Ability to manage multiple tasks in fast-paced environments

Academic Qualification:

B.E (Mechanical Engineering) – Latha Mathavan Engineering College, Madurai

Affiliated to Anna University, Chennai – 2025 – 70%

Diploma (Mechanical Engineering) – St. Joseph's Polytechnic College – 2021 – 87%

Academic Project Details:

Diploma project details

Project Title: Frictionless Braking System

- Developed a braking system concept aimed at minimizing mechanical friction
- Focused on improving safety, reliability, and component longevity

B.E Project Details

Project Title: Design and Fabrication of Inline Pipe Inspection Robot

- We designed the inline pipe inspection robot using solidworks for 3D modelling.
- Integrate a camera-based system to capture real-time visuals for detecting cracks, corrosion, and blockages inside pipelines.

Co-curricular Activities:

- Worked as Invigilator and Multi-Operating Executive at TCS iON IDZ, Kidaripatti
- Participated in college-level workshops and CAD design competitions
